

## STEP 1:

First turn off the fryer. Drain all the oil from the fryer in the normal way.

## STEP 2:

Allow the Frylow to cool. Wearing heat resistant gloves remove the Frylow from the empty fryer.

## STEP 3:

Rinse the Frylow under HOT water to remove stuck on food, wipe with a cloth & leave to dry.

- >> ALWAYS wear heat resistant gloves!
- >> Ensure the Frylow is completely DRY before installing in your fryer
- >> Clean your Frylow every time you change your fryer oil

BE CAREFUL OF HOT OIL

DO NOT USE TONGS

NO DETERGENTS

NO EXCESSIVE FORCE

DO NOT OPEN

## STEP 4:

After cleaning the fryer & the Frylow install the Frylow per installation instructions.

## STEP 5:

Fill the fryer with oil and set the thermostat to operating temperature.

## Twice per Month

Clean the Frylow in a pot of boiling water for 10 minutes 2x/month.
